

*With us by your side, you can be confident of a safe, timely, hassle-free project outcome*

## **Our story**

At Sventek Cranes, we believe that experience is everything. Our management team brings over 30 years of industry experience, and our crane drivers, riggers, and dogmen are expertly trained and qualified. We guarantee reliability and superior service at any time of the day or night.

Sventek Cranes was founded by our working director, Vlado Sventek. With a beginning in steel erection, Vlado

soon branched out into mobile crane hire and now boasts an impressive fleet of mobile cranes. At Sventek Cranes we're not just about the technical know-how. We also believe in the human touch, understanding the nuances of each site and its unique challenges. We pride ourselves on our fleet's excellent safety record and rigorous team training. You're in good hands with Sventek.

## Core Competencies

### Mobile crane hire

Reliable and cost-effective mobile crane hire services across Melbourne and greater Victoria. We offer precision, power, and adaptability, with traffic management and electrical spotter services available where required.

### Steel erection and rigging

Our skilled riggers, dogmen, and boilermakers offer structural steel erection and rigging services tailored to site conditions and lifting capacity.

### Precast concrete panel installation

Extensive experience in job set-out, drilling, chem setting of dowel bars, and fish plate welding.

### Specialised insulation panels and Glulam timber installation

We specialise in Glulam timber installations as well as insulated panels lifts, predominantly Kingspan and Metecnospan products. If your roof needs a lift, get in touch with Sventek Cranes today!

### Industrial shutdown works

Streamline your shutdown schedule with our expertise and ensure a swift transition back to regular operations with minimal fuss.

## Our values

Our team has the forethought and skills to make your lift as cost-effective and efficient as possible. We offer very competitive rates for all our crane hire projects in Melbourne and across Greater Victoria.

We aim to be respectful and transparent with our clients and believe that by working together we can provide outstanding results. We believe in building strong relationships based on trust, reliability, and quality workmanship.

Our can-do attitude and reliability are second to none and we go above and beyond to ensure our clients expectations are not only met but exceeded. We value the people that make this possible, and we are always looking for new and innovative ways to improve our service for you.

## Our cranes

## Areas of service

At Sventek Cranes, we transport our own equipment, so wherever you are, we will get to you. From the Mornington Peninsula to Dandenong, all the way to Geelong, we service Melbourne and across Victoria. No job is too small or out of the way.

## Versatility and uncompromising safety with Sventek's mobile crane hire service

At Sventek Cranes, we believe the combination of modern innovation and experience is the key to providing service excellence for our clients in their lifting and construction projects. Our team is equipped with the knowledge and tools to tackle any job, no matter the size or complexity. Our premium quality workmanship paired with unparalleled service makes us your first choice in crane hire and erection services.

With a wealth of knowledge in crane hire and steel erection, our outstanding team is our most valuable asset. Our employees are provided with all necessary training, and we continuously review our policies and procedures to improve our processes to ensure the safety of our team and clients.

Backed by over 30 years in the construction industry, our specialist skills offer you peace of mind in the knowledge you are working with a team of experts who are committed to delivering exceptional results. Our years of experience in the industry equip us with the knowledge to anticipate challenges and devise effective solutions. From understanding the project's geography to matching the right equipment, our expertise ensures smooth project execution. Experience is everything!

## Safety is always our highest priority!

At Sventek Cranes, our services expand beyond the conventional. Whether it's assisting with steel, precast, roofing erection or installations, or manoeuvring a delicate spa onto a balcony—our extensive range of cranes ensures we're well equipped to tackle every lifting challenge. From tight access cranes that manage spaces with restricted access to powerful machinery capable of lifting even the heaviest objects, no task is too big or small.

Sventek Cranes is also proud to provide our services to the Government of Victoria in many civil infrastructure developments; specialising in 'big-build' rail, road and airport.

To ensure your lifts are seamlessly integrated into your project, you need a partner you can trust. Navigating Melbourne's complex construction landscape requires the right mix of equipment, expertise, and adaptability. We proudly bring these elements together to offer Melbourne's best specialised lifting services tailored to suit your unique needs. Not certain about the equipment you need? Or have a specific query related to your project? Get in touch with Melbourne's premier specialised lifting experts and let us lift you higher.

*Ensure your project stays on track with our team of highly trained professionals and our fleet of advanced cranes.*

Our cranes and equipment are some of the best in the industry and we keep them immaculately maintained with regular services and inspections. Our versatile fleet provides a great deal of mobility and requires very little set-up, making our cranes ideal for projects with limited space. Our commitment to excellence ensures that every lifting task, regardless of its scale, is executed with the utmost precision.

We work closely alongside our clients to understand their project or lift requirements and tailor our services to meet their needs. It's all about communication. This ensures clarity on the scope of work, the exact resources needed, and realistic timelines. Our team is always available to provide expert advice and guidance on the best possible approach.

We also offer tailored structural steel erection services with personalised inspections of your site. This in turn allows us to develop individual and site-specific SWMS prior to commencement of each project. We use state-of-the-art equipment and industry-leading techniques to ensure our clients' assets are well protected throughout the erection process.
